

FLEET MANAGEMENT SOFTWARE

MXSuite

MXSuite bundles all your data in different modules so you get alerts when documents expire, when it's time to complete maintenance tasks, when you need to purchase parts because your stock levels are below a predefined threshold and much more.

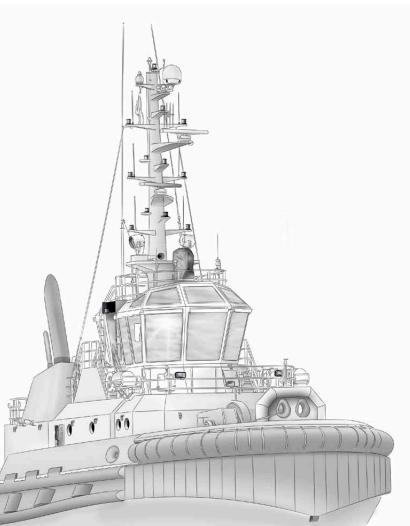

MXSuite is a very complete solution for maritime fleet management. The modules are fully integrated. Integrations with other solutions are possible such as accounting, tank gauging systems, monitoring systems.

MXSuite

MXSuite is a modern, user friendly, modular but fully integrated solution. Thanks to many years of experience in the industry and the strong relationship with our customers we have been able to develop a simple, yet efficient interface of MXSuite.

From the office you have an overview of all data from all vessels in the fleet. Each vessel has only its own data available. A reliable synchronization between office and vessels ensures improved efficiency and ability to work offline onboard of the vessels.

Availability of dashboards and other reporting capabilities provide for high level overview and deep insights in the state of your fleet related to maintenance, inventory, purchase, documents, safety and many more elements which are important to monitor and improve your business processes and manage your fleet in a cost effective and efficient manner.

Benefits

- Improved reliability
- Increased efficiency
- Complete overview and insight
- Save cost
- Fast Return on Investment (ROI)
- Compliant with ISM / IMO / ISPS
- One solution for each type of vessel
- Share experience gained from over a thousand implemented systems worldwide

Services

- World wide support
- Customer Portal for support
 and questions
- Full pack of consultancy
 - Integration capabilities
 - Database building
 - Data migration
- Training remote or onsite

Infrastructure

On premise

- Full data control
- Easy to interface with third-party software

Cloud

- Managed solution with 99% uptime
- Back-up and updates covered

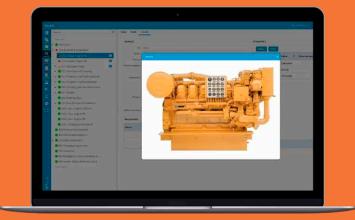

MXSuite modules

ASSETS TASKS

- Planned & Corrective maintenance
- Time & counter based
- Docking tasks
- Linked to parts & purchase

ASSETS PARTS

- Manage spare parts
- Stock management min/max levels
- Link to installed equipment
- Store all related (HazMat) documents

PURCHASE

- Configurable purchase process
- Clear overview of outstanding orders
- Get insights in your annual budget
- Create inquiries & purchase orders

CERTIFICATES

- Overview of all certificates
- Email certificates
- Save digital certificates
- Fill (NCR) form after survey

SAFETY

- Manage safety drills
- Save drill procedure
- Fill ISM form after drill completion
- Full insight in completed drills

DOCUMENTS

- Synchronize documents
- Easily manage documents per ship
- Create and fill forms
- Read confirmation of documents

CREWING

- Save personal details
- Make crew planning
- Print crew lists
- Work- and rest hour registration

FLGO

- Calculate consumption
- Keep track of tank content
- Store bunkerings and deliveries
- On screen graphic interfaces

IHM

- Create your inventory hazardous materials
- Keep track of HazMat quantities
- Store inspection reports
- Ensure compliance

SYNCHRONIZATION

- Synchronizes all data between ship and office
- Separated data and document synchronization
- Works with all communication technologies
- Maximal compression to save airtime

DASHBOARD

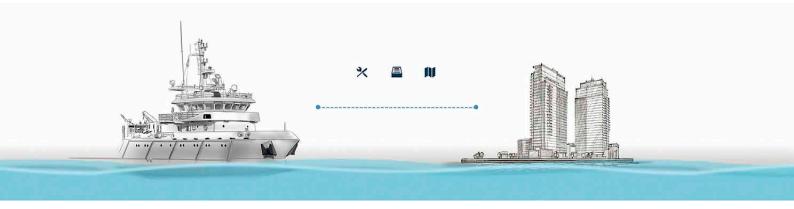

- Graphic & list views
- High level overview
- Gain deep insights
- Improve decision-making

simplicity is the key

Mastex Software BV is the total solution provider for maritime fleet management and the official supplier of MXSuite software.
